

READING CORNER PROJECT

On a Saturday morning, 9th November 2019, a team of 9 exuberant young people from Avanade Malaysia, a Microsoft partner IT solutions company, descended upon PLS to create a study corner for our children. They came with DIY bookshelves that they painstakingly assembled, placed them at strategic locations in the 3 dormitories and filled them with an assortment of books they brought as well, carefully selected for the needs of the children.
